

Re: Thank you - REPLY TO YOUR LETTER / German plan for Grain-Trains-Ukraine

An EEAS EURCA 2 <eurca-2@eeas.europa.eu>

Dear Mr. Tibbels,

Dear Head and Team of Ukraine Division,

Thank you for "transmitting" 30x Grain-Conveyor
Supra-National TASK > to European Commission.

Please allow us to send the actual .ppt showing
"Grain-Trains-Ukraine" in a nutshell - (attached)

Today, - there was a newspaper article : that a
commission RU Turkey UA "found a solution"
to open a path in and out of Odessa - DANGER

The pressure in Ukraine must be extremely
high - But it is Ukraines Decision then ...

Without Odessa - Ukraine becomes economicly
a country with no more harbours and business ...

Grain-Train-Ukraine is more expensive then
Ship-Freight and more expensive then Grain
from Russian fields - Take a wise decision ...

Thanks to Brussels.

Best regards from
