there will be big additional costs for ensuring the Safety of the transports - double the price						
anticipate 30 yrs of Police guarding the trains - and we want GSG 9 overseeing these transports						
that is a first rough calculation by the GDF architect - Volker Goebel - Dipl.-Ing. Endlager-Planer						
and we need to overwork the "hulls" on the waggons - safety shield against bazooka tarror						
<i>Germany has to store the Swiss Castors !? Switzerland got no good host-geology - save the Rhein</i>						
we are still too slow - we do decent SAFETY quality transports - and we get it done ...
