Dear Government of Kasachstan,

... this is - Dipl.-Ing. Architect - Volker Goebel - from Germany writing to the Government of Kasachstan.

In West-Kasachstan, in the Pricaspian Basin your country got deep Salt-domes. - Many Salt-Domes !

The EU countries seek a payed geology partner to build safe and dry geological disposal facilities for nuclear high level waste. So called DBHD GDF

Would you consider ? to take 50 Bio. EUR over 70

years for a contract that allows EU to build DBHD

GDFs in the salt domes. - We drill D 12,4 m holes.

Looking forward to your answer - Is 50 Bio EUR

over 70 years a price that Kasachstan can accept ?

>>> Long live Kasachstan - an amazing country

Germany buys yellow cake - you had 2 Bio.

Eurobonds - you are an active  modern state.

With best regards from Germany to Kasachsan

Volker Goebel
