

A 45 Umleitung Brunsbecke

1.776 Meter

Ausbau-Stecke

Ersatz-Neubau

Brücke Kattenohl

läuft bereits, dort

Neu neben Alt

The background image shows a map of a road network with several green contour lines representing elevation levels. Red diamond-shaped symbols with the text "Delta Q" are scattered across the map, particularly along the roads. Overlaid on this map are large, bold, orange text elements. At the top, it says "Planverfasser". Below that is "A 45 Umlegung". Underneath those, it says "Brunsbecke". Below "Brunsbecke" is "Ing. Goebel". At the bottom, the date "14.11.2025" is displayed. The text is semi-transparent, allowing the map details to be seen through it.

A close-up photograph of a topographic map. The map features green shaded relief representing hills and valleys, with numerous contour lines in brown and black. Some contour lines are labeled with green numbers like '2'. A bridge structure is visible, spanning a valley. The background is a light beige color. Overlaid on the map is large, bold, orange text. The text reads: "Sprengung und Ersatz-Neubau Talbrücke Brunsbecke ab 08/2026 bis ca. 2031".
